Golf Course to Open

The Public Affairs Section at the U.S. Embassy in Algiers has partnered with the Ministry of Youth and Sports, the Office of the Olympic Complex (OCO), and the Algerian Golf Federation, to install the first driving range in Algiers. A driving range is primarily used as a learning platform for players who want to learn principle techniques and improve their golf performance. The new driving range will be managed by Professional Golf Association expert Aamir Chaudhry, who will offer professional golf lessons and provide free workshops for children. This landmark accomplishment will be celebrated by all those who love the game of golf on **May 4, 2012 at 10:00** at the Official Opening Ceremony held at the **Terrain du Golf** in Del Ibrahim.
